PROFILE

Computer Science and Engineering student with strong foundations in data structures, backend systems, and database design. Solved 300+ DSA problems and built scalable web applications with authentication, optimized data handling, and modular architecture. Interested in applying software and analytical skills to real-world engineering systems and industrial applications. Strong skills in Mathematics and Physics.

EDUCATION

Bachelor of Engineering in Computer Science 2023 – 2027
Faculty of Technology and Engineering, Maharaja Sayajirao University
CGPA: 7.9/10

12th Grade (Science) 2022 – 2023
Percentage: 86% — Percentile: 99.50

JEE Mains Percentile: 99.04

10th Grade 2020 – 2021
Percentage: 88%

CORE SKILLS

Programming Languages: Java, C/C++, JavaScript, Python

Backend: Node.js, Express.js

Frontend: HTML, CSS, Bootstrap, React.js

Databases: MongoDB, MySQL, PostgreSQL

Tools: Git, GitHub

Core Concepts: Machine Learning, Artificial Intelligence, Computer Vision, DBMS, Operating Systems, Computer Networks, Data Structures & Algorithms, OOP, API Design, Problem Solving

EXPERIENCE

Software Engineer Intern Aug 2027 – Present
Odysseus Solutions Pvt. Ltd.

- Working on AI/ML solutions involving computer vision, model development, and deployment.
- Developing and integrating AI models into production-oriented applications.

Data Entry Assistant 2023 – 2025
DMP Enterprises Pvt. Ltd.

- Managed data entry, record maintenance, and verification tasks with accuracy and consistency.
- Organized and updated digital records while meeting deadlines and maintaining data quality.

AI Coding & Bilingual Contributor Aug 2025 – Present
DataAnnotation.tech Roles : SWE, Generalist, Hindi-English Bilingual, Gujarati-English Bilingual, Indian English Bilingual

- Worked on AI training and evaluation tasks involving coding and bilingual language capabilities.
- Contributed to improving AI model performance through accurate annotations, quality reviews, and detailed feedback.

AI Data Annotation Contributor Feb 2026 – Present
Remotasks

- Annotated video, image, and LiDAR/3D data for AI model training and evaluation.
- Performed object labeling, tracking, and quality checks according to project guidelines.

PROJECTS

FocusForge – Productivity & Focus Management Platform
React.js, Node.js, Express.js, PostgreSQL, JWT Live Demo

- Built a full-stack productivity platform featuring task management, focus sessions, analytics, and user authentication.
- Implemented secure JWT-based authentication and protected API routes for user-specific data access.
- Designed responsive dashboards to track productivity metrics, focus time, and task completion trends.
- Integrated PostgreSQL database with optimized schema design for scalable and efficient data handling.
- Developed real-time focus timer workflows and session tracking functionality to improve user productivity experience.
- Deployed and managed the application with cloud hosting and version control workflows.

Tourism Booking Platform (Full Stack)
Node.js, Express.js, MongoDB, EJS Live Demo

- Designed and implemented RESTful APIs for user management, bookings, and enquiries.
- Built secure authentication system using JWT for protected user sessions.
- Optimized MongoDB schema for efficient data retrieval and reduced query overhead.
- Developed dynamic UI with EJS templates for improved user interaction.
- Implemented admin dashboard and enquiry workflows simulating real-world applications.

Banking Management System
Java, MySQL

- Developed modular banking system supporting account creation, transactions, and account statements.
- Designed relational database schema for efficient management of customer and transaction data.
- Applied object-oriented programming principles for scalable and maintainable architecture.
- Built secure login and authentication functionality for users.

ACHIEVEMENTS

- Solved 300+ DSA problems on LeetCode, including 90+ medium-level problems.
- Strong understanding of algorithms, recursion, optimization, and problem-solving techniques.
- Secured 99.04 percentile in JEE Mains. Mathematics percentile 99.6+.

CERTIFICATIONS

- Google – Foundations of Cybersecurity
- Deloitte Australia Technology Job Simulation (Forage)
- Advanced Java Udemy Certification

INTERESTS

• Backend Systems • Scalable Architecture • Data-driven Problem Solving • Software Engineering Applications • Machine Learning • Artifical Intelligence • Computer Vision
